Pathways School

Supporting Pupils with Medical Conditions Policy

Policy Monitoring

Date policy last reviewed: June 2026

Signed by:

Neil Jones	Headteacher	Date:	June 2026
Saima Ali	Chair of governors	Date:	June 2026

Date of next review: June 2027

This policy will be reviewed at least annually and following any concerns and/or updates to national/local guidance or procedure.

Statement of intent

The governing board of Pathways School has a duty to ensure arrangements are in place to support pupils with medical conditions. The aim of this policy is to ensure that all pupils with medical conditions, in terms of both physical and mental health, receive appropriate support to allow them to play a full and active role in school life, remain healthy, have full access to education (including school trips and PE), and achieve their academic potential.

The school believes it is important that parents of pupils with medical conditions feel confident that the school provides effective support for their children's medical conditions, and that pupils feel safe in the school environment.

Some pupils with medical conditions may be classed as disabled under the definition set out in the Equality Act 2010. The school has a duty to comply with the Act in all such cases.

In addition, some pupils with medical conditions may also have SEND and have an Education, Health and Care (EHC) plan collating their health, social and SEND provision. For these pupils, the school's compliance with the DfE's 'Special educational needs and disability code of practice: 0 to 25 years' and the school's Special Educational Needs and Disabilities (SEND) Policy will ensure compliance with legal duties.

To ensure that the needs of our pupils with medical conditions are fully understood and effectively supported, we consult with health and social care professionals, pupils and their parents.

1. Legal framework

This policy has due regard to all relevant legislation and guidance including, but not limited to, the following:

- Children and Families Act 2014
- Education Act 2002
- Education Act 1996 (as amended)
- Children Act 1989
- National Health Service Act 2006 (as amended)
- Equality Act 2010
- Health and Safety at Work etc. Act 1974
- Misuse of Drugs Act 1971
- Medicines Act 1968
- The School Premises (England) Regulations 2012 (as amended)
- The Special Educational Needs and Disability Regulations 2014 (as amended)
- The Human Medicines (Amendment) Regulations 2017
- The Food Information (Amendment) (England) Regulations 2019 (Natasha's Law)
- DfE 'Special educational needs and disability code of practice: 0-25 years'
- DfE 'School Admissions Code'
- DfE 'Supporting pupils at school with medical conditions'
- DfE 'First aid in schools, early years and further education'
- Department of Health 'Guidance on the use of adrenaline auto-injectors in schools'

This policy operates in conjunction with the following school policies:

- Administering Medication Policy
- Special Educational Needs and Disabilities (SEND) Policy
- Pupil Drug and Alcohol Policy
- Asthma Policy
- Allergen and Anaphylaxis Policy
- Complaints Procedures Policy
- Pupil Equality, Equity, Diversity and Inclusion Policy
- Attendance and Absence Policy
- Pupils with Additional Health Needs Attendance Policy
- Admissions Policy

2. Roles and responsibilities

The governing board will be responsible for:

- Reviewing this policy alongside the headteacher and office admin.
- Ensuring that this policy is readily accessible to parents and school staff.
- Fulfilling its statutory duties under legislation.
- Ensuring that arrangements are in place to support pupils with medical conditions.
- Ensuring that pupils with medical conditions can access and enjoy the same opportunities as any other pupil at the school.
- Working with the local authority (LA), health professionals, commissioners and support services to ensure that pupils with medical conditions receive a full education.
- Ensuring that, following long-term or frequent absence, pupils with medical conditions are reintegrated effectively.
- Ensuring that the focus is on the needs of each pupil and what support is required to support their individual needs.
- Instilling confidence in parents and pupils in the school's ability to provide effective support.
- Ensuring that all members of staff are properly trained to provide the necessary support and are able to access information and other teaching support materials as needed.
- Ensuring that no prospective pupils are denied admission to the school because arrangements for their medical conditions have not been made.
- Ensuring that pupils' health is not put at unnecessary risk. As a result, the board holds the right to not accept a pupil into school at times where it would be detrimental to the health of that pupil or others to do so, such as where the child has an infectious disease.
- Ensuring that policies, plans, procedures and systems are properly and effectively implemented.
- Ensuring that the school's policy clearly identifies the roles and responsibilities of all those involved in the arrangements they make to support pupils and sets out the procedures to be followed whenever a school is notified that a pupil has a medical condition.
- Ensuring that the school's policy covers the role of individual healthcare plans, and who is responsible for their development, in supporting pupils at school with medical conditions.
- Ensuring that plans are reviewed at least annually, or earlier if evidence is presented that the child's needs have changed.

The headteacher will be responsible for:

- Reviewing this policy with the governing board.
- The overall implementation of this policy.
- Ensuring that this policy is effectively implemented with stakeholders.

- Ensuring that all staff are aware of this policy and understand their role in its implementation.
- Ensuring that all staff who need to know are aware of the child's condition.
- Ensuring that a sufficient number of staff are trained and available to implement this policy and deliver against all individual healthcare plans (IHPs), including in emergency situations.
- Considering recruitment needs for the specific purpose of ensuring pupils with medical conditions are properly supported.
- Having overall responsibility for the development of IHPs.
- Ensuring that staff are appropriately insured and aware of the insurance arrangements.
- Contacting the office admin where a pupil with a medical condition requires support that has not yet been identified.

Parents will be responsible for:

- Notifying the school if their child has a medical condition.
- Providing the school with sufficient and up-to-date information about their child's medical needs.
- Being involved in the development and review of their child's IHP.
- Carrying out any agreed actions contained in the IHP.
- Ensuring that they, or another nominated adult, are contactable at all times.

The office admin will be responsible for:

- Reviewing this policy alongside the governing board and headteacher.
- Notifying the school at the earliest opportunity when a pupil has been identified as having a medical condition which requires support in school.
- Supporting staff to implement IHPs and providing advice and training.
- Liaising with lead clinicians locally on appropriate support for pupils with medical conditions.

Clinical commissioning groups (CCGs) will be responsible for:

- Ensuring that commissioning is responsive to pupils' needs, and that health services are able to cooperate with schools supporting pupils with medical conditions.
- Making joint commissioning arrangements for EHC provision for pupils with SEND.
- Being responsive to LAs and schools looking to improve links between health services and schools.
- Providing clinical support for pupils who have long-term conditions and disabilities.
- Ensuring that commissioning arrangements provide the necessary ongoing support essential to ensuring the safety of vulnerable pupils.

Other healthcare professionals, including GPs and paediatricians, are responsible for:

- Notifying the office admin when a child has been identified as having a medical condition that will require support at school.
- Providing advice on developing IHPs.
- Providing support in the school for children with particular conditions, e.g. asthma, diabetes and epilepsy, where required.

Providers of health services are responsible for cooperating with the school, including ensuring communication takes place, liaising with the office admin and other healthcare professionals, and participating in local outreach training.

The LA will be responsible for:

- Commissioning office admins for local schools.
- Promoting cooperation between relevant partners.
- Making joint commissioning arrangements for EHC provision for pupils with SEND.
- Providing support, advice, guidance, and suitable training for school staff, ensuring that IHPs can be effectively delivered.
- Working with the school to ensure that pupils with medical conditions can attend school full-time.

Where a pupil is away from school for 15 days or more (whether consecutively or across a school year), the LA has a duty to make alternative arrangements, as the pupil is unlikely to receive a suitable education in a mainstream school.
